About

Smile :)

For the environment

Recyclable plastic glasses for every purpose!

I hope you all have a lovely summer. Here in Denmark we are challenged by a bit of rain. But tomorrow it should get better.

I would like to share, no less than 9 benefits, using our products.

9 benefits

1) 5 year warranty.

Our glasses DONT break. Run them over with your car, they dont break

2) Crystal clear.

You can't tell the difference between our glass and a glass (glass)

3) Ligh items.

A tray of normal glasses weighs 12 kilos. Ours weighs 5. This means a lot for the working environment and for the people who have to work with the glasses

4) RECYCLABLE, REUSABLE..

What your company can do for the environment. Our products can be reused up to 2000 times. They don't break after that, but maybe it's time to change them. Here, as the only ones in the EU, we offer to take back used glass, crush it and recycle it into new products! We take responsibility for the environment

5) Production in Denmark

CE-labelled and approved for food use About half of what we sell is produced in the EU, mostly in Denmark. We have our own large warehouse in Denmark, which means fast delivery.

6) DURABLE

Each product can be washed more than 2,000 times

7) STACKABLE

Most products are easy to stack. It means a lot to those who have to collect them and wash them.

8) EASY CLEANING

Wash the same way as conventional products (see washing instructions)

9) HIGH QUALITY

Thick base, crystal clear and indestructible. We have the highest quality of all. We don't compromise on that!

10) HIGH INSULATION PROPERTIES

Resistant to heat or cold, and can be frozen in 5 minutes!

UPS - that was 10 benefits, not 9.. I hope thats okay :)

If you want to see for your self, then order samples with me to day Have a great summer, and oh! By the way, if we dont have the product your looking for, then we can make it :)
